The California Newborn Screening Program Note
Effective Date: June 2014

THIS NOTICE DESCRIBES HOW PERSONAL AND MEDICAL INFORMATION ABOUT YOU OR YOUR NEWBORN MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Department's Legal Duty

Federal and State laws restrict the use, maintenance, and disclosure of personal and medical information obtained by a State agency and requires certain notices to individuals whose information is maintained.

State laws include the California Information Practices Act (Civil Code 1798 et seq.), Government Code Section 11015.5 and Health and Safety Code Section 124980. The federal law is the Health Insurance Portability and Accountability Act of 1996 (HIPAA), 42 USC 1320d-2(a) (2), and its regulations in Title 45 Code of Federal Regulations Sections 160.100 et seq. In compliance with these laws, you and those providing information are notified of the following.

Department Authority and Purpose for the Newborn Screening Program

The CDPH collects and maintains specimens and information related to newborn screening as permitted in Health and Safety Code Sections 124980, 124977, 124991, 125000, 125001, 125025, and 125030. This information is collected electronically and includes such things as your name, address, medical care given to you and your newborn. Testing is required by law (Health and Safety Code Section 125000) and regulations (17 CCR 6500 through 6510) and if the required information is not provided, serious illness or permanent damage for affected newborns could result.

If you have religious objections to this testing, you may say "no" to the testing in writing and sign a form advising you that your hospital, doctor, and clinic staff are not responsible if your baby develops problems because those disorders were not identified and treated early.

Uses and Disclosure of Health Information

The CDPH uses health information about you or your newborn for screening, to provide health care services, to obtain payment for screening, for administrative purposes, and to evaluate the quality of care that you or your newborn receives. Some of this information is retained for as long as 21 years. The information will not be sold.

The law also allows the Department to use or give out newborn screening specimens and/or general health information about you or your baby, for department-approved studies, such as research related to preventing disease. The material will be provided, **without any personal identifying information**. Researchers can only apply to receive

the information if they have been approved by an institutional review board (IRB) and meet all federal and state privacy law requirements.

The Department is authorized by law to charge approved researchers a fee to recover all the expenses related to the research request (including data linkage, retrieval, data processing, data entry, re-inventory, shipping of blood samples, and related data management).

The Department reserves the right to change the terms of this notice and to make the new notice provisions effective for all protected health information that it maintains.
