

**DEPARTAMENTO DE CALIFORNIA DE SALUD PÚBLICA
RAMA DE SALUD OCUPACIONAL
PROGRAMA PARA LA SEGURIDAD DE COSMÉTICOS DE CALIFORNIA
Julio de 2019**

LISTA DE INGREDIENTES QUE SE DEBEN REPORTAR

El Acta de Seguridad de Cosméticos de California del 2005 requiere que los fabricantes de cosméticos informen al Departamento de Salud Pública de California (CDPH, por sus siglas en inglés) sobre todos aquellos productos que contienen ingredientes causantes, o causantes potenciales, de cáncer, defectos natales u otra toxicidad reproductiva, así como fueron determinados/establecidos por los órganos científicos acreditados citados en el Código de Salud y Seguridad de California, Sección 111791.5. Éstos órganos son 1) Oficina de Evaluación de Riesgos Ambientales para la Salud (La Lista de la Propuesta 65 de Sustancias Químicas Conocidas por Causar Cáncer o Toxicidad Reproductiva); 2) La Agencia de Protección Ambiental de los E.E.U.U. (U.S.EPA, por sus siglas en inglés); 3) El Programa Nacional de Toxicología (NTP, por sus siglas en inglés), anteriormente el Centro para la Evaluación de Riesgos a la Reproducción Humana (CERHR, por sus siglas en inglés); 4) Reporte de agentes cancerígenos del NTP (RoC); y 5) La Agencia Internacional para la Investigación del Cáncer (IARC, por sus siglas en inglés).

Para ayudar a las compañías a reportar, CDPH ha preparado esta lista de ingredientes que se deben reportar, utilizando las listas y los reportes de estas organizaciones. Debe de ser observado que estos órganos acreditados actualizan la información publicada constantemente. Para la información más reciente sobre las sustancias químicas que se deben reportar, consulte directamente las listas y reportes disponibles de estas

Se proveen los números de CAS (el número de registro del Servicio de Abstractos Químicos) y sinónimos para algunos químicos en la lista. Sin embargo, no es una lista con todo incluido. Fabricantes todavía pueden tener la obligación de reportar una sustancia química a CDPH aunque un sinónimo específico o número de CAS para un ingrediente no se encuentre en esta lista.

Nota a los consumidores: No todos estos químicos se encuentran en productos cosméticos. Además, la probabilidad de que un producto cause cáncer o toxicidad reproductiva depende de muchos factores, incluyendo pero no limitado a la cantidad y el tipo de exposición a sustancias químicas en el producto. Las sustancias químicas son nombradas aquí a causa de resultados de investigaciones en sustancias químicas y no en productos cosméticos.

Para obtener más información sobre el Programa Para La Seguridad de Cosméticos de California, por favor visite nuestro sitio a www.cdph.ca.gov/Cosmetics o llame al (877) 325-3223.
