

Alternative Medical Waste Treatment Technologies

Effective Date: September 29, 2016

The technologies listed below have been approved by the Department of Public Health to treat medical waste in California. Please review the information provided to verify the approved uses of each technology. Individuals interested in the products described in this document are encouraged to contact the company directly.

Alternative Technology Approval is based solely on a product’s demonstration of pathogen destruction. Use of the technologies may require permitting for on-site or off-site medical waste treatment. Permitting of onsite facilities is addressed in 117925 (a) and 117950 (a) of the Medical Waste Management Act. Permitting of offsite facilities is addressed in 118130.
