

Micro Learning Video: PDC PSR Inconsistencies

In this video, you will learn about PSR soft and hard inconsistencies.

Hard and Soft Inconsistencies

When saving a PSR, you may run into inconsistencies that will appear at the bottom of the record as shown:

- 18 Hard Inconsistencies which must be resolved before submitting
- 21 Soft Inconsistencies which are not required to be resolved before submitting

Submitting a PSR with Inconsistencies

If submitting with inconsistencies still present, the PSR will go into In GDSP Review status instead of Submitted status.

Submitting a PSR without Inconsistencies

Only PSRs submitted without inconsistencies will go directly into Submitted status.
