Phillip Robinson, MD, Infectious Disease Association of California

Absent:

OlgaDeTorres, PharmD, FASHP, BCPS-ID, Department of Pharmacy, O'Connor Hospital

Dan Uslan, Associate Clinical Professor, Infectious Diseases at University of California Los Angeles

Samantha Tweeten, PhD, MPH, San Diego County Department of Public Health

CDPH Staff:

Lanette Corona, Associate Healthcare Program Advisor

TOPIC:

Call to Order

DISCUSSION:

The Antimicrobial Stewardship Subcommittee meeting was held on Thursday September 1, 2016, via teleconference.

ACTION/ OUTCOME:

Dr. Lee called the meeting to order at 2:04 pm.

TOPIC:

Roll Call and Welcome

DISCUSSION:

Brian Lee, MD welcomed participants to the meeting, and invited all on the call to state their name and institution. New attendance included:

- Bridgette Olson, ASP/ID Pharmacist Sharp Coronado Hospital
- Peter Patterson, MD, MBA, FCAP Medical Director, Arizona and San Diego Diagnostic Laboratories & Radiology

TOPIC:

Review of minutes

DISCUSSION:

The July 6, 2016 meeting minutes were approved as presented.

TOPIC:

Update from CDPH:

Review of Bagley-Keene Open Meeting Act

Update from CDPH/HAI –AC

DISCUSSION:

Review of Bagley-Keene Open Meeting Act

Members were reminded of the Bagley-Keene Open Meeting Act 2010 rules. Specifically, to ensure all meeting agenda items are submitted within time to ensure they are included on the published agenda which must be posted 10 days prior of the actual meeting date. In addition, members are to ensure they are not discussing meeting information outside of public meetings with more than one additional member or member of the public to comply with the rules whether it is on the phone, via email or in person. Should members have additional comments or questions regarding meeting information after the meeting ends, they should contact the subcommittee chair directly to address their requests.

Update from CDPH/HAI –AC

Members were informed the motion to present the AS survey to California health professional schools and residency training programs at the August 11th HAI-AC meeting was approved. It was noted; CDPH is currently refining the survey and anticipate disseminating it within the next month.

The current chair of the AS/AR subcommittee, Dr. Lee will be ending his term with the CDPH HAI-AC at the end of the year. Under guidance of the HAI Program's chief, the chair of the HAI-AC, Dr. Silvers, selected and announced Dr. Marisa Holubar as the next AS/AR subcommittee chair. Members thanked Dr. Lee for his leadership and success in leading the subcommittee.

Members were reminded of the CDPH partnership with California Association of Health Facilities (CAHF) and the Quality Care Health Foundation (QCHF) free 6-part webinar series: Antibiotic Stewardship in Nursing Homes. The partnership supports CA skilled nursing providers preparing for the new mandate (SB 361). Each interactive one-hour webinar will address a topic area that aligns with the CDC "Core Elements of Antibiotic Stewardship in Nursing Homes" and will feature different presenters and panelists from key stakeholder organizations across the state. The next webinar is 9/29/16.

TOPIC:

Discussion Items:

Components of ASP for skilled nursing facilities: SB361: On or before 1/1/17, each skilled nursing facility, as defined in subdivision © of Section 1250, shall adopt and implement an antimicrobial stewardship policy that is consistent with antimicrobial stewardship guidelines developed by CDC and CMS, SHEA or similar recognized professional organizations

DISCUSSION:

The tiered ASP components for SNFs were reviewed.

Members were reminded of the goal to finalize the tiered ASP SNF components prior to the November HAI-AC meeting. The Basic tier was completed at the last meeting but may be continued to be synthesized into fewer elements.

Bullet #1 in the Intermediate tier was discussed and was recommended to be changed to read, "Analyze facility specific antibiogram annually and use these data to re-evaluate antimicrobial formulary and informed guidelines for empiric therapy for common infection syndromes."

Members determined to remove bullet #2 and #3 altogether as they were addressed in the Basic tier education element.

Bullet #4 had the last part of the sentence removed, "as DOT. Monitoring/auditing/reporting of antibiotic use/antimicrobial prescribing patterns/practices (including DDD or DOT) and report regularly/quarterly to facility QAPI committee."

Bullet #5 was reworded to state, "Track adverse outcomes related to antibiotic use."

Bullet #6 was edited to read, "Provide written summary of AS goals and outcome measurements to prescribers regularly".

Members determined to remove bullet #7 altogether as it was not required.

Bullet #8 was edited to remove the example "Loeb minimum criteria" and add "such as" before "McGeer criteria."

Members determined to move Bullet #9 to the Advanced tier. It was edited to read, "Implement an antimicrobial "time-out" at 48-72 hours to optimize therapy based on patient response and culture results."

Members determined to remove bullet #10 altogether as it was not required.

The first bullet in the Advanced tier is now, "Implement an antimicrobial "time-out" at 48-72 hours to optimize therapy based on patient response and culture results."

ACTION/ OUTCOME:

Chair to revise the tiered document and send to members who are to review prior to next meeting and relook at the previous elements to determine if any can be removed or combined.

TOPIC:

Next meeting

DISCUSSION:

October 6, 2016 2-3pm

TOPIC:

Adjournment

DISCUSSION:

A motion for adjournment was made. Meeting adjourned at 3:00pm.
