# **Over The Counter COVID-19 At-Home Tests**

#### **Use an At-Home Test Yourself and Get Results Within Minutes**

#### **Free Tests For Most**

Plan ahead to have tests at home before you get sick. Available at most pharmacies, no prescription needed. Check with your local pharmacy or retail store.

#### Medi-Cal? —

Ask the pharmacist for free at-home tests with no co-pay. See <u>Medi-Cal</u> <u>instructions for getting free test kits PDF</u> or scan the QR code to the right.

### **Medicare?** –

Bring your red, white, and blue Medicare card to a pharmacy to get your free tests. See details at <u>Medicare Covers Over-the-Counter COVID-19 Tests</u> or scan the QR code to the right.

## **Private Health Insurance?**

Your insurance must cover 8 at-home tests per person per month. There are several ways private insurance offers at-home over the counter tests. Some insurance companies will mail them to you directly, some have partnerships with pharmacies and will allow you to pick them up for free, others require you to purchase the test and then fill out a form for reimbursement. Ask your insurance company how to get your free tests. Find out more at <a href="How to Get Your At-Home Over-the-Counter COVID-19">How to Get Your At-Home Over-the-Counter COVID-19</a> Test for Free or scan the QR code to the right.

Most antigen tests are approved for use past their printed expiration dates. — See details at <u>COVID-19 antigen self-test expiration extensions</u> or scan the QR code to the right.

Scan this QR code to read more about at-home tests.
