Director and State Public Health Officer

State of California—Health and Human Services Agency
California Department of Public Health

GAVIN NEWSOM
Governor

October 25, 2022

To: Child Care Facility Managers
California County/District Superintendents, School Principals and
Nurses

From: Robert Schechter, MD
Immunization Branch Chief

Subject: Annual Immunization Assessment Reporting for 2022-2023

1. Annual Immunization Assessment Reporting for 2022-2023

[California Health and Safety Code Section 120375 and California Code of Regulations Section 6075](#) requires all child care facilities and schools (including home schools) to review students' immunization records and report annually on their immunization status of students.

Before reporting, please review the guidance at www.CDPH.ca.gov/SchoolReporting. Check that each student has in the cumulative file a complete and accurate:

- California School Immunization Record (CSIR or "Blue Card"), or
- An electronic record of required vaccinations (can be stored in a computerized system).

If your school is closed or does not have students for the applicable ages or grades, please sign-in to report the school's closure or lack of students.

Password for log-in: **shotsforschool**

2. Updates to Medical Exemption Immunization Requirements

In 2021, CDPH launched the California Immunization Registry – Medical Exemption (CAIR-ME, <https://cair.cdph.ca.gov/exemptions>) website as the only method in California to issue and track new medical exemptions from required vaccines for children attending school or child care facilities. CAIR-ME was created in response to laws passed in 2019 (Senate Bills 276 and 714).

Once you receive a new medical exemption from an incoming enrollee, you may request access to CAIR-ME by emailing medicalexemptions@cdph.ca.gov. You will be able to look up medical exemptions in CAIR-ME for children attending your school or facility. Please visit the [Exemption FAQs](#) for additional information.

3. Summary of Child Care Preschool Requirements

AGE WHEN ADMITTED	TOTAL NUMBER OF DOSES REQUIRED OF EACH IMMUNIZATION ^{2,3}			
18 months through 5 years	3 Polio	4 DTaP	3 Hep B	1 Varicella
	On or after the 1st birthday:		1 Hib ⁴	1 MMR

Complete version: [Guide to Immunization Requirements for Pre-Kindergarten](#) or [17 CCR 6025, Table A](#).

4. SB 277 - Cessation of New Personal Belief Exemptions since 2016

Under Senate Bill 277, since January 1, 2016, personal belief exemptions from vaccines required for entry into child care facilities or school are no longer permitted.

In addition, immunization requirements do not apply to students who attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, schools must continue to report on these students, including homeschools that received this communication.

Reporting will continue to monitor all students who are missing vaccines for any reason, including reasons allowed by Senate Bill 277.

Students who have an individualized education program (IEP) should continue to receive all necessary services identified in their IEP regardless of their vaccination status.

Thank you for your continued efforts to protect California's schoolchildren from life-threatening diseases.
