* Total counts include cases for the entire year; year to date (YTD) counts include cases reported with an onset date between January 1 and June 17. Total and YTD counts for the current year will be the same.

† Counties with no cases reported between 2014-2019 are excluded from the table above. City health jurisdictions (Berkeley, Pasadena, and Long Beach) are excluded from county total.

‡ Los Angeles data is partially reported for 2019.

Note: This report should be viewed as a preliminary "snapshot" of pertussis activity. Because data are preliminary, the information may be updated in later reports as additional case reports are received.
