RE: PUBLIC HEALTH LABORATORY STATE INSPECTION

Complaint Inspection - CORRECTIONS ACCEPTABLE

Dear Laboratory Director/Owner(s):

This is to confirm that a State onsite complaint investigation of your laboratory was conducted on February 7, 2021, by Elsa Eleco, Examiner III, and Catherine Tolentino, Examiner II, representatives of the California Department of Public Health, Laboratory Field Services. The complaint investigation concluded on April 22, 2021.

At the time of the inspection, your laboratory was found to be **out of** compliance with State laws and regulations governing clinical laboratories, and deficiencies were found.

The corrections and evidence submitted by your laboratory were received in our office on May 3, 2021, and October 18, 2021, and found to be acceptable upon review.

Please note that the inspection takes an overview of the laboratory through random sampling. By its nature, an inspection may not find every instance of non-compliance that may have occurred in the laboratory. It remains the responsibility of the laboratory and its director to ensure that the laboratory is at all times following all state laws and regulations related to clinical laboratory requirements, to identify any problems in the laboratory and take corrective action specific to the problems, and to institute appropriate quality assessment measures to ensure that the deficient practices do not recur. Compliance with these laws and regulations is your responsibility as a licensee in retaining the rights and privileges granted by the Public Health Laboratory License.

We appreciate the time and cooperation that was given to accommodate the purpose of this visit. If you have any questions regarding this letter, you may contact me at 213-422-5703 or via email at Catherine.Tolentino @cdph.ca.gov.

Sincerely,

Catherine C. Tolentino
Examiner II

Elsa Eleco
Section Chief
