

# RESOURCES FOR PUBLIC HEALTH PARTNERS

The below list of infection prevention resources are designed to assist local health departments (LHD) with infection prevention strategies in their health jurisdictions. Materials that are designated for skilled nursing facilities (SNF) or hospitals (ACH) may be used as reference or training tools by LHD. All the below resources include links to materials, time estimates for trainings, and key information about each resource. For more information about these trainings, contact the HAI Program at [HAIProgram@cdph.ca.gov](mailto:HAIProgram@cdph.ca.gov).
