WEBLINKS 23

INTRODUCTION

Dear Sexually Transmitted Diseases (STD) Controller,

I am happy to present our new guide, “Resources for Local California Sexually Transmitted Diseases (STD) Programs.” The purpose of this guide is to provide local California STD program directors and your staff with a comprehensive list of resources that will help you design and implement your programs. We developed this guide based on the needs that STD program directors identified in our 2013/2014 Infrastructure Survey.

On the following pages, you will see resources on all programmatic areas, including Disease Intervention, Clinical Practice Guidelines, Laboratory Verification, Clinical Administration, Health Promotion and Health Education, Surveillance and Data, and Policy and Communications. Each section contains the name of the STD Control Branch staff person who can provide additional information and technical assistance about each area. Please feel free to contact them at any time.

New resources come – and go – all the time. For that reason, we intend to update this regularly. A current version will be posted on our website, www.std.ca.gov. Please feel free to email stdcb@cdph.ca.gov if you have any feedback or suggestions, including any other resources that you have found helpful and would like to share with others.

Thank you for your continued work to improving the sexual health of Californians.

Heidi Bauer, MD, MPH, MS
Chief, STD Control Branch
California Department of Public Health

ACRONYMS

ACA	Affordable Care Act
AMA	American Medical Association
APHL	Association of Public Health Laboratories
ARHP	Association of Reproductive Health Professionals
ASHWG	Adolescent Sexual Health Working Group
CAHC	California Adolescent Health Collaborative
CalHEP	California Hepatitis Alliance
CAP	Condom Access Project
CCLHO	California Conference of Local Health Officers
CDC	Centers for Disease Control and Prevention
CDE	California Department of Education
CDPH	California Department of Public Health
CFHC	California Family Health Council
CGSS	California Gonorrhea Surveillance System
CMR	Confidential Morbidity Report
CMS	Centers for Medicare & Medicaid Services
CT	<i>Chlamydia trachomatis</i>
EC	Education Code
EPT	Expedited Partner Therapy
Family PACT	Family Planning, Access, Care, and Treatment
FDA	Food & Drug Administration
FDT	Field Delivered Therapy
GC	<i>Neisseria gonorrhoea</i>
GLMA	Gay and Lesbian Medical Association
HCV	Hepatitis C Virus
HHS	Health and Human Services
HIBC	High-Intensity Behavioral Counseling
HIV	Human Immunodeficiency Virus
HRSA	Health Resources and Services Administration
IPN	Internet Partner Notification
IT	Information Technology
LGBTQ	Lesbian, Gay, Bisexual, Transgender, Queer
MCAH	Maternal, Child, and Adolescent Health
MSM	Men Who Have Sex With Men
NAAT	Nucleic Acid Amplification Testing
NACCHO	National Association of County and City Health Officials
NCC	National Chlamydia Coalition
NCHSTP	National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention
NCSD	National Coalition of STD Directors
OA	Office of AIDS
OPA	Office of Patient Advocate

OVHP	Office of Viral Hepatitis Prevention
PDPT	Patient-Delivered Partner Therapy
PS	Partner Services
PTC	California STD/HIV Prevention Training Center
SASSI	Self-Directed and STD-Focused SAS Instruction
STD	Sexually Transmitted Disease
STD TAC	STD Related Reproductive Health Training and Technical Assistance Center
STDCB	Sexually Transmitted Diseases Control Branch
STI	Sexually Transmitted Infection
TA	Technical Assistance

** Linked files below that require a password utilize the standard CalREDIE document password: CalREDIE123*

DISEASE INTERVENTION

Lead: Edwin Lopez | edwin.lopez@cdph.ca.gov | 562-570-4084

Guidelines

-  [National Recommendations for Partner Services Programs for HIV Infection, Syphilis, Gonorrhea, and Chlamydial Infection – MMWR 2008 \(CDC\)](#)¹
-  [Congenital Syphilis Resources for Field Investigation \(CDPH\)](#)²
-  [Partner Services Quick Guide \(CDC\)](#)³

Mentorship (Training)

Lead: Raquel Paz | raquel.paz@cdph.ca.gov | 510-620-3186

The Disease Intervention and Partner Services Mentorship Program is intended to enhance local capacity for disease intervention through standardized hands-on training. Trainees complete a skills inventory checklist and receive tailored mentorship in case management, interview and field investigation techniques. Local participants and supervisors track progress through assessment tools. Note: Training and TA available upon request.

Internet Partner Notification (IPN)

Lead: Raquel Paz | raquel.paz@cdph.ca.gov | 510-620-3186

New technologies (i.e. e-mail addresses, profile IDs, and instant/text messaging) are useful in public health follow-up, especially under circumstances where notification via this approach may be the only option. Protocols and standard messaging templates are available. Notification through private websites (e.g. Manhunt, etc.) can be difficult due to IT permission issues; CDPH-STDCB IPN Liaisons are available to initiate communication with exposed partners via private websites, referring them to local health department staff for specific disease exposure information. Note: Training and TA available upon request.

-  [National Guidelines for Internet-based STD and HIV Prevention \(NCSID\)](#)⁴
-  [Introducing Technology into Partner Services: A Toolkit for Programs \(CDC\)](#)⁵
-  [List of STDCB IPN Liaisons available to assist your health jurisdiction \(CDPH\)](#)⁶ [password protected=CalREDIE123]

Field Delivered Therapy (FDT)

-  [Guidelines for the Treatment of Chlamydia and Gonorrhea Cases and Exposed Sexual Partners by Health Department Staff in Non-Clinical Settings \(CDPH\)](#)⁷

HIV Partner Services (PS)

Lead: Jae Egan | jeffrey.egan@cdph.ca.gov | 619-688-3187

The CDPH STDCB collaborates with OA to provide training and technical assistance to support implementation and evaluation of HIV Partner Services (PS) activities in local prevention, care and surveillance programs. To learn more about the HIV PS program, or to request training or technical assistance, please contact the OA Partner Services Coordinator, Manny Rios at manny.rios@cdph.ca.gov or 916-449-5824.

The CDPH STDCB is leading a pilot project to enhance and evaluate integrated partner services and linkage to care outcomes for patients co-infected with syphilis and HIV, or gonorrhea and HIV. To learn more about the use of surveillance data to identify/prioritize STD clients for integrated HIV partner services activities, please contact Jae Egan at jeffrey.egan@cdph.ca.gov at 619-688-3187.

Syphilis Reactor Grid Evaluator (SRGE)

Lead: Joan Chow | joan.chow@cdph.ca.gov | 510-620-3718

The SRGE tool enables STD programs to evaluate how well current gender, age, and syphilis reactor titer cut-points perform in identifying infectious syphilis cases for investigation versus administrative closure. Local epidemiology and surveillance staff work with DIS staff to set up and implement this user-friendly, flexible tool for optimizing the syphilis reactor grid in the context of local resources and potential changes in local syphilis epidemiology over time.

Syphilis Reactor Triage

Lead: Edwin Lopez | edwin.lopez@cdph.ca.gov | 562-570-4084

The disease intervention section is available to address syphilis reactor processing or reactor triage questions. The lead may assist with the input of regional managers.

Congenital Syphilis Case Management

Lead: Raquel Paz | raquel.paz@cdph.ca.gov | 510-620-3186

Consultation

The Clinical Consultation Service “warm line” (co-sponsored by the California STD/HIV Prevention Training Center and the CDPH STDCB) is staffed by physicians and nurse practitioners with expertise in STD diagnosis, treatment and management. The “warm line” is available to local health department staff and clinical providers from the community (not the general public).

Submit your request online: www.stdccn.org

Hours: Monday through Friday 8:00am-5:00pm PST. Calls are returned within 24 hours or the next business day (for Friday calls).

Phone number: 510-620-3400

-  [PDF version of List of Laboratories Capable of Performing NAAT for Chlamydia and Gonorrhea on Rectal and Pharyngeal Specimens \(APHL\)](#)⁶¹
- Verification of Patient Self-Collected Extragenital Nucleic Acid Amplification Tests for Diagnosis of *Neisseria gonorrhoeae* (GC) and *Chlamydia trachomatis* (CT) (CDPH). Document is available by request.

CLINICAL ADMINISTRATION

Pharmaceutical Toolkit

Lead: Claire Feldman | Claire.Feldman@cdph.ca.gov | 510-620-3938

On-site Dispensing Toolkit - includes information on injectable medications (CDPH/PTC). Document is available by request.

340B Drug Pricing Program

Lead: Claire Feldman | Claire.Feldman@cdph.ca.gov | 510-620-3938

The 340B Drug Pricing Program requires drug manufacturers to provide outpatient drugs to eligible health care organizations at significantly reduced prices. STD Clinics are eligible for the 340B program under section 318 of the Public Health Service Act. STD Clinics are clinics that diagnose and treat sexually transmitted diseases and receive funding or in-kind support from the CDPH STDCB. Participating clinics can purchase any 340B covered outpatient drug for patients that meet the eligibility criteria listed on the HRSA website.

LHJ Purchasing Program

CDPHSTDProcurement@cdph.ca.gov

On an annual basis, this program encourages LHJs to request items from a list of products that include STD medications, lab supplies, condoms, health education brochures and posters, and printed clinical guidelines. All requests will be collected in the spring; multiple shipments can be arranged. There is no fee to participate in this purchasing program. The STDCB will select the vendors, handle the bid process, and make the arrangements to have the items delivered to each LHJ's location.

HEALTH PROMOTION AND HEALTH EDUCATION
